EMBRACING DIVERSITY
PROMOTING DISCOVERY

The Graduate School at UTSA supports the success of each student we serve to meet their academic, professional and personal goals. UTSA offers over 90 doctoral, master’s and graduate certificate programs across seven academic colleges: Architecture, Business, Education and Human Development, Engineering, Liberal and Fine Arts, Public Policy, and Sciences. UTSA enrolls over 4,900 graduate students who enjoy small classes and personalized attention from nationally- and internationally-recognized faculty.

Gain the knowledge and the skills you need to achieve your academic and professional goals. Your degree will set you on the path toward exciting possibilities, such as career advancement and leadership development. Our graduates find employment and career advancement opportunities across private, public, government, and educational industries. Faculty members as well as our Career Services Office help graduate students find advanced positions in business, industry and nonprofits. To accommodate students who are already employed full time, UTSA offers many of our graduate courses in the evening.

We invite you to speak with a UTSA representative to find out more about our graduate degree offerings by calling, emailing, dropping by, or chatting with us online. For more information, visit graduateschool.utsa.edu.

DIVERSITY

As a Hispanic-Serving Institution that encourages diversity in our students, faculty and staff, we are dedicated to providing access to educational excellence for all—which includes personal background. We serve a student body made up of more than 40 percent under-represented ethnic groups. As we strive toward Tier One status, our students and faculty focus on a wide variety of research interests, including energy, environment, health, human and social development, security, and sustainability. Our complimentary goals are to offer these diverse opportunities in research discovery while supporting the academic success of every student who enters our graduate programs.
The College of Architecture offers three graduate programs, all of which take advantage of the college’s downtown location. The City of San Antonio, composed of several historical layers dating back to the early 17th century, is an ideal laboratory for the study of architecture and urbanism.

**DEGREE OFFERINGS**

- **M.Arch.**
  - Architecture
  - Research Degree
  - Urban and Regional Planning
  - Interdisciplinary program with College of Public Policy

- **M.S.**
  - Architecture
  - Research Degree
  - Historic Preservation
  - Urban & Regional Planning

**GRADUATE CERTIFICATES**

---

The College of Business offers high-quality instruction that educates students in leading technologies and sophisticated research capabilities. It is the hallmark of the College of Business. The college’s graduate portfolio expands upon the traditional business foundations and challenges students to develop competencies in the areas of leadership, ethics, critical thinking and quantitative analysis. The program is nationally ranked and accredited by AACSB International. Award-winning faculty offer classes during the evening to accommodate working professionals. The College of Business is preparing leaders for the new world of business.

**DEGREE OFFERINGS**

- **M.B.A.**
  - Business Administration
  - Business Economics
  - Business of Health
  - Finance
  - Information Assurance
  - Information Systems
  - Management of Technology
  - Management Science
  - Marketing Management
  - Project Management
  - Real Estate Finance
  - Tourism Destination Development

- **Dual Degree with Master’s of Public Health**
  - In conjunction with UT School of Public Health
  - International Business

- **Executive M.B.A.**

- **MACY**
  - Accountancy
  - M.A.
  - Economics

- **M.S.**
  - Applied Statistics
  - Construction Science & Management
  - Finance
  - Real Estate Finance
  - Information Technology
  - Infrastructure Assurance

- **M.S. MOT**
  - Management of Technology

**DOCTORAL PROGRAMS**

- Applied Statistics

- Accounting
- Finance
- Information Technology
- Marketing
- Organization and Management Studies

**GRADUATE CERTIFICATES**

- Business of Health
- Real Estate Finance & Development
- Technology Entrepreneurship & Management

---

**MEET CLARE**

Clare Clout, who’s pursuing a master’s in architecture, uses simulation programs at the Texas Sustainable Energy Research Institute to find cost-effective and energy-efficient upgrades for new designs and existing buildings. She has become a more conscientious designer, helping real people save energy and money, and she credits San Antonio as a city actively leading environmental policy.

**CLARE CLOUT**

Student
Master’s of Architecture

---

**MEET DR. HALLAM**

In combination with the Center for Innovation and Technology Entrepreneurship graduate students can pursue degree programs related to management of technology, and a certificate in Technology Entrepreneurship and Management (which is open to all colleges). Dr. Hallam leads a strong research focus on technology management and entrepreneurship with opportunities for highly capable graduates interested in thesis topics and publishable research.

**CORY HALLAM**

Faculty
Department of Information Systems and Technology Management
MEET DR. RENDÓN

A nationally-recognized expert, Laura Rendón worked with colleagues to establish and co-direct the Center for Research and Policy in Education. The center’s work informs the educational community about critical factors that affect the academic success of key student groups. She finds that a holistic approach to education encouraging critical thinking and problem solving benefits low-income and first-generation students.

LAURA RENDÓN
Faculty
Educational Leadership and Policy Studies

MEET JUSTIN

Justin Garcia, who’s pursuing a Ph.D. in biomedical engineering, came to UTSA because the joint program between the university and the UT Health Science Center at San Antonio allows him to work with both research faculty and medical physicians. Through his collaborative research, he hopes to discover new medical factors that may affect diseases such as diabetes and atherosclerosis.

JUSTIN GARCIA
Ph.D. Candidate
Biomedical Engineering

COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

The College of Education and Human Development prepares professionals for leadership positions in educational and human development organizations serving diverse populations. Faculty members engage in a broad range of research programs and provide extensive contributions to the community and the university. The college encompasses five academic departments and offers personalized support for students. A vast array of field-based activities are available for both traditional and nontraditional graduate students.

DEGREE OFFERINGS

M.A.
- Bicultural-Bilingual Studies
  - Bicultural-Bilingual Education
  - Bicultural Studies
- Teaching English as a Second Language
- Counseling
  - School Counseling
  - Community Counseling
- Education
  - Curriculum & Instruction
  - Early Childhood & Elementary Education
  - Instructional Technology
  - Reading & Literacy
  - Special Education
- School Psychology

M.Ed.
- Educational Leadership
  - K-12 Administration
  - Community College & 4 year Institution Administration

M.S.
- Health & Kinesiology

DOCTORAL PROGRAMS
- Counselor Education & Supervision
- Culture, Literacy and Language
- Educational Leadership
- Interdisciplinary Learning and Teaching

GRADUATE CERTIFICATES
- Applied Behavioral Analysis
- Bilingual Reading Specialist
- Digital Learning Design
- Higher Education Administration
- Teaching English as a Second Language

DEGREE OFFERINGS

M.S.
- Advanced Manufacturing & Enterprise Engineering
- Advanced Materials Engineering
- Biomedical Engineering
- Civil Engineering
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering

M.C.E.
- Civil Engineering

DOCTORAL PROGRAMS
- Biomedical Engineering
- Environmental Science & Engineering
- Electrical Engineering
- Mechanical Engineering

High-tech classrooms, state-of-the-art laboratories and computing networks, and the most sophisticated technology create an information-intensive environment at the College of Engineering. Our graduate degree programs offer opportunities for advanced study and research designed to prepare students for leadership roles with industry, government, educational institutions, and research organizations. San Antonio is home to several major engineering corporations such as Valero, Pape-Dawson, SAIC, and Toyota’s new manufacturing plant. We offer career guidance and professional development for our graduate students.
Located on the Downtown Campus, the College of Public Policy is housed near many government, law enforcement and nonprofit organizations. The college offers academic research and analysis opportunities that prepare graduates for leadership and professional practice in public policy fields. We also offer collaborative interdisciplinary partnerships that contribute to the public good in today's diverse society.

**Degree Offerings**
- M.S. Justice Policy
- M.P.A. Public Administration
- M.S.W. Social Work

**Doctoral Programs**
- Applied Demography

**Graduate Certificates**
- Nonprofit Administration & Leadership

Unparalleled opportunities in the College of Sciences allow you to perform cutting-edge research alongside world-class faculty who prepare you to become a scientific leader. The college houses a second-generation aberration-corrected electron microscope, the first of its kind nationwide, allowing researchers to view images at the atomic level, aiding research in all areas. The college has also secured the first revenue-producing license with Merck, in collaboration with the UT Health Science Center at San Antonio, to produce a vaccine against Chlamydia trachomatis.

MEET DR. FRANTZ

Professors such as Doug Frantz, who is working to grow new heart muscle cells and turn cancerous cells benign, represent the world-class faculty at UTSA. Graduate students have the invaluable opportunity to gain hands-on experience in the lab, where Frantz and his assistants are developing drug-like molecules that target stem cells to treat cardiovascular disease and cancer.

UTSA’S PATH TO TIER ONE STATUS

“As an institution of access and excellence, UTSA embraces multicultural traditions and serves as a center for intellectual and creative resources as well as a catalyst for socioeconomic development and the commercialization of intellectual property— for Texas, the nation and the world.”

— UTSA mission statement

As part of UTSA’s pursuit of Tier One status, we’re focused on producing more graduates from graduate level programs than any other university in South Texas. Established in 1969, UTSA’s Main Campus has grown each year with new state-of-the-art facilities such as the Biosciences, Technology and Engineering building and the Applied Engineering and Technology building, which houses the first wireless library on a college campus in the nation.

A TOP-TIER GRADUATE SCHOOL

The Graduate School supports education in innovative ways. We partner with academic colleges and departments to develop excellent new programs and to support the academic preparation and experiences for our graduate population. UTSA is accredited by the Commission of the Southern Association of Colleges and Schools to award bachelor’s, master’s and doctoral degrees. Many of our programs are also accredited by professional organizations within the discipline. The Graduate School services include:

FUNDING SUPPORT
The Graduate School offers workshops and services to assist future and current graduate students with financial information. This includes ensuring information is distributed regarding scholarships, fellowships and assistantships.

MENTORING
The Graduate School offers mentoring experiences for current graduate students such as our thesis and dissertation and career preparation workshops and services.

COMMUNITY BUILDING
The Graduate School partners with our Graduate Student Association, Academic Colleges and Student Affairs offices to provide the graduate population with the most up-to-date information for the successful completion of their degree.
Students who come to UTSA will be mentored by nationally- and internationally-recognized faculty who will provide opportunities for cutting-edge research.

Recently, UTSA opened the Applied Engineering and Technology Building, designed to support world-class research and teaching in science and engineering. The $82.5 million include 148,127 square feet of classroom and lab space for students and faculty. Research grants awarded by federal agencies, such as the National Science Foundation, the U.S. Department of Defense, and the National Institutes of Health, will help to fund student education through competitive scholarships, fellowships, teaching and research assistantships.

Students have access to several research centers and institutes including:

ARCHITECTURE

The Center for Cultural Sustainability uses an infrared camera to detect moisture in the walls of the Alamo. Locating concentrations of water within the walls informs conservation efforts to address deterioration and delamination of the limestone and plaster finish.

- Center for Cultural Sustainability
- Center for Urban & Regional Planning

BUSINESS

UTSA opened the New Venture Incubator, stepping up its effort to commercialize the intellectual property of UTSA faculty and students.

- Center for Education & Research in Information & Infrastructure Security
- Center for Innovation & Technology
- Center for Excellence in Engineering Education
- Interactive Technology Experience Center
- Texas Sustainable Energy Institute
- Water Institute of Texas

LIBERAL AND FINE ARTS

The College of Liberal and Fine Arts, which has the highest enrollment at UTSA, ranks second in the U.S. for external research funding in arts, humanities and social sciences.

- Bank of America Child & Adolescent Policy Research Institute
- Center for Archaeological Research

PUBLIC POLICY

As part of the college’s efforts to support the neighboring community, the Department of Social Work created the B Heard Music Café, where students recruited professional musicians to donate their time to perform alongside Haven for Hope musicians. The students also obtained instruments for the Haven members.

- Institute for Demographic & Social Economic Research
- Institute for Demographic & Social Economic Research

UTSA supports a variety of research institutes and centers, including the Bank of America Child and Adolescent Policy Research Institute, Center for Advanced Manufacturing and Lean Systems, which provide many research opportunities for students. As part of UTSA’s reach toward Tier One, one of our goals is to continue increasing research expenditures to be competitive with other top-tier research universities.

RESEARCH EXPENDITURES

Research and sponsored program expenditures in fiscal year 2012 totaled $196,686,988, representing a 13 percent increase from the previous year. Research expenditures were $56,633,860, and nonresearch expenditures were $122,054,128. In five years, research expenditures have increased 65 percent.

Students have access to several research centers and institutes including:

CENTER AND INSTITUTES

- University Grant monies (fill out the UTSA, Free Application for Federal Student Aid, as soon as possible for the upcoming academic year)
- Fellowships, scholarships and grants
- Teaching, research and graduate assistantships

STUDENT SUCCESS

ACADEMIC ENRICHMENT
The Graduate School partners with UTSA faculty, staff, and students each semester to provide the opportunity to take learning beyond the classroom. Special events and workshops focus on a variety of academic, research, skill-building, and professional development topics, providing information that will enhance your academic experience. Events are free to students and their guests. Most workshops are also offered online. Other services available include:
- Web Article Series
- Orientation
- Seminars & Events
- Thesis & Dissertation Formatting Services
- Graduate Student Appreciation Week
- Funding Opportunities
- International Graduate Student Orientation

THE JOHN PEACE LIBRARY
LIB  UTS A.EDU  210-458-7506
The UTSA Libraries include the John Peace Library on the Main Campus, the Downtown Campus Library, and the Applied Engineering and Technology Library, which has been recognized by the New York Times and USA Today as the nation's first bookless library on a university campus. The John Peace Library recently received a major renovation, a project informed by fresh thinking on collection management and student intellectual engagement. The libraries are integrated into the intellectual life of campus through active partnerships with the Writing Center, the Teaching and Learning Center and the Tomás Rivera Center for Student Success.

Currently the libraries offer an array of services for graduate students including three graduate student-only study rooms (two on Main Campus and one on Downtown Campus), a series of workshops for graduate students, one-on-one assigned research assistance for discipline-specific topics, extended weekend and evening hours, and myriad online journals and services graduate students can access from anywhere.

STUDENT LIVING

DINING ON CAMPUS
No matter where you go on either our Main or Downtown Campus, a cup of coffee or a bite to eat, dining options are all within walking distance. On-Campus dining includes, but not limited to:
- Starbucks Coffee
- Chick-fil-A
- Chili’s Too
- Panda Express
- Subway
- Smoothie King
- Burger King
- Einstein Bros. Bagels
- Taco Cabana

HOUSING OPTIONS
LIB.UTSA.EDU/HOUSING  210-458-6200
Students have several on-campus housing options. The newest on-campus residences are Laurel Village and Chaparral Village. These two complexes offer apartment-style living with either two or four private bedrooms, a living room and a kitchenette, which includes a microwave, sink and full-size refrigerator. These complexes are owned and managed by UTSA, and residents are required to purchase meal plans.

Campus Living Villages (CLV), a privately-owned company, owns and operates both Chisholm Hall and University Oaks. A student choosing one of these options will have a contract with Campus Living Villages, not the university.

Our graduate students can also choose from a variety of housing options near both the Downtown and Main Campuses. The Graduate Recruiting staff can provide information on where to live in San Antonio.

STUDENT RECREATION
The Campus Recreation office enhances a student’s educational experience by providing opportunities for recreational activities.

CAREER CENTER
LIB.UTSA.EDU/CAREER
Career Services is here to assist students and alumni in identifying and developing the skills necessary to pursue lifelong career goals.

CHILD DEVELOPMENT CENTER
LIB.UTSA.EDU/CDC
The UTSA Child Development Center provides child care services for UTSA students, staff and faculty.

DISABLED SERVICES
LIB.UTSA.EDU/DISABILITY
Disability Services at UTSA promotes equal access to all university programs and activities for students with disabilities.

FINANCIAL AID
LIB.UTSA.EDU/FINAID
Student Financial Aid and Enrollment Services works to serve students by providing a wide range of funding opportunities for graduate students.

HEALTH SERVICES
LIB.UTSA.EDU/HEALTH
Student Health Services provides the most up-to-date medical care to students.

OFFICE OF INTERNATIONAL PROGRAMS
INTERNATIONAL.UTSA.EDU
The Office of International Programs provides information on immigration, financial resources, and health insurance for international students.

OFFICE OF SPONSORED PROGRAMS
VPR.UTSA.EDU/GSP
The Office of Sponsored Programs supports and advises the entire academic community in securing external support for sponsored programs and collaborations.

DIRECTORY OF SERVICES
CAMPUSSBOOKSTORE
LIB.UTSA.EDU/BOOKSTORE
The UTSA Bookstores offer a full line of new and used textbooks, reference books, school and office supplies, and academically priced software for students and staff.

CAMPUS RECREATION
LIB.UTSA.EDU/RECREATION
The Campus Recreation office enhances a student’s educational experience by providing opportunities for recreational activities.

EXPLORE
UTSA AND SAN ANTONIO

UTSA has three campuses located in San Antonio, the country’s seventh largest city. Although big, the city retains its small-town flavor with distinctive neighborhoods, an active downtown area, and affordable living options. San Antonio, with a population of 1.3 million, has straddled a cultural, historical and geographical crossroad for over 300 years. The result is a southwestern city that derives its vitality from natural resources, international business and visitors worldwide. San Antonio’s natural beauty, dozens of festivals and cultural opportunities make it the state’s top tourist and convention site, drawing 7 million visitors every year. San Antonio has deep Latino roots and a fusion of other cultures, expressed through art, music, shopping and more in and around our campuses.

MAIN CAMPUS
Main Campus is located on the northwest side of San Antonio, conveniently by La Cantera and The Rim outdoor shopping centers, and Six Flags Fiesta Texas. Graduate students can take advantage of nearby apartment living with shuttle service to campus. The Main Campus houses several new buildings, including technologically advanced classrooms and labs for research. The John Peace Library was recently renovated and includes a new computer lab, three graduate study rooms, full online services, and an extended array of workshops and personalized services for graduate students.

DOWNTOWN CAMPUS
Downtown Campus is located in the heart of San Antonio, within walking distance to the River Walk, El Mercado and other downtown sights. Graduate programs that serve the San Antonio community are often held at this campus. Programs include public policy, counseling and architecture disciplines. Students who study at the Downtown Campus enjoy the same services and programs offered at Main Campus.

HEMISFAIR PARK CAMPUS
HemisFair Park is also located downtown and is home to the Institute of Texan Cultures, which through research, collections, exhibits and programs, serves as the forum for the understanding and appreciation of Texas and Texans alike.

SAN ANTONIO ATTRACTIONS

BICYCLE DOWNTOWN
Enjoy the city’s natural beauty and historic attractions with B-cycle, Texas’ first bike-share program, with 14 convenient downtown stations.

BRACKENRIDGE PARK
Located along the San Antonio River, Brackenridge houses the San Antonio Zoo and the Japanese Tea Garden.

EL MERCADO
Also known as Market Square, a plaza with family-owned cafes, working artists, and the largest Mexican market north of the Rio Grandes.

MISSION TRAILS
The Mission Trail links our missions, including the Alamo, with the nearby aqueduct, an engineering marvel.

NATURAL BRIDGE CavernS
North of the city is a vast limestone cavern carved by underground water.

PEARL BREWERY COMPLEX
The Pearl Brewery features the Culinary Institute of America, restaurants, shops, a farmers market and live entertainment at a riverside amphitheatre.

RIVER WALK
San Antonio’s one-of-a-kind River Walk is the lifeline of the city, anchoring a vibrant downtown.

SAN ANTONIO MUSEUM OF ART
The museum lives in a converted 19th century brewery that showcases Latin American, Asian, Greek, Roman and American collections.

SEA WORLD SAN ANTONIO
One of the nation’s Sea World attractions resides in San Antonio.

SIX FLAGS FIESTA TEXAS
Almost 50 rides, ranging from mild to max on the excitement meter.
